

BM-12 BOOM MOUNTED TRACTOR

Solution for the welding universe

FEATURES

1. Digital display, easy to read.
2. 100% arc start rate through touch sense function and wire retracting function.
3. Laser indicator be used for pointing out the groove.
4. The short circuit protection function prevents PCB damage from the internal short of the control cable or the short between the control cable and the welding output cable.
5. Reserved interface of controller signal for controlling external equipment's start and stop.
6. Reserved motorized cross slide board interface, easy to use.

Model	Unit	BM-12
Application Wire Diameter	mm	2 to 6
Arc Striking Mode	-	Retracting/Scarping
Wire feed speed	m/h	30-300
Cross Slide Head Adjustment	mm	manual - 150/150mm motorized - 200/200mm
Adjustable Angle of the Welding Head		45°
Weight	kg	52
Cross Slide for Welding Head	Type	manual/motorized
